Construction/Validation/Performance (Kit Veldman)

- Dave Solomona has coordinated with the SixCENSE probe vendor to conduct training for the City staff on 20 April.
- The final electrical shakedown and inspection for Encanto Park is still on schedule for 26 April.
- Dave Solomona discussed back plane repair with ATSI for the RTU.
- Destruction was completed last week on the Darby well. Kit/Roger will confirm with Dennis that the chemical and water level of MW-140 (Colima replacement well) will be collected during the April sampling event.
- Kit to verify with Dennis why URS is placing PDB's for split sampling with SBMWD.
- URS has received the comments from EPA and CH2M Hill on the monthly report. Kit drafted an email today to Adam for review with questions on Kim's comments.
- URS extraction and monitoring well installation report is on hold so the Colima well can be included.
- EPA sent a letter to the City requesting the draft O&M manual comments and a letter requesting the data.

General Discussion

- Included in next week's agenda is to have Roger go over the capture analysis on a monthly basis and Kit will put together the concentration versus time for the most current data and three-month rolling averages through March. Stacey would like to review the data before the meeting.
- Kim will work on resolving the table of responses that Mark sent for the QA/QC plan and the OSAP.
